

CP69 - STREET TREES

Request for Removal

Where an owner or occupier requests the removal of live street trees the work to be carried out at their own expense, and that where replacements are required, suitable varieties and spacing be arranged through Council staff.

Suitability of Planting

That new tree plantings on the roadside of kerb and gutter and a long range replacement program be suitable shrub types within the footpath to avoid damage to Kerb and Gutter and to expedite street and gutter cleaning. The choice of trees under power lines is to be approved by the Director Operations in conjunction with standards set by Country Energy.
