

Local community are invited to learn more about the Lower Murray: Locks 8 and 9 Project.

The NSW Government's Water Infrastructure NSW is working on a project to restore and enhance the river habitat across the interconnected Frenchmans Creek and Carrs, Capitts and Bunberoo Creek systems.

The proposed work will provide positive ecological and environmental outcomes as well as social and recreational benefits for locals.

Join us to learn more about the project

To find out more about the Locks 8 and 9 project and to hear from our team, save the date to attend the session (registration is not required):

- Wednesday 9 March 2022 (1pm – 4pm) at the Wentworth Grande Resort, Conference Room, 61-79 Darling St, Wentworth

We want to involve and inform our community on the project and understand stakeholder views, so we can consider this feedback as part of the planning process.

The NSW Government's COVID-19 guidelines will be in place for the duration of the event and attendees are requested to comply with the venue's requirements.

This project is being delivered by the NSW Government with funding provided by the Australian Government under the Murray-Darling Basin's program for implementing Sustainable Diversion Limit Adjustment Mechanisms.
