

Application for Rural Address Number

This application form is to be used when requesting a Rural Address Number.

Rural Addressing numbers are similar to street numbers as they identify your property for visitors and emergency service vehicles. The number however is based on a measured distance, usually from the beginning of the road; this makes it easy for people to locate the property quickly.

A rural address sign is a reflective address plate attached at the top of a galvanized post. Plates indicate the rural number and the road name allocated to your property. Plates are double-sided.

What are the costs?

New application including Rural Address Plate (Fee to be charged as per Operational Plan Fees & Charges at time of payment)
