

Wentworth flooding

Do not enter floodwater

Watch and Act

Issued: Wednesday 21 Dec 2022 6:02 pm

Next update: Friday 23 Dec 3:30 pm or as the situation changes

The NSW SES advises people in the following area(s) **NOT TO ENTER FLOODWATER** due to current widespread major flooding:

- Wentworth and surrounding areas

You should monitor the situation as it is constantly changing. Avoid floodwater for your safety.

What are we expecting?

The Bureau of Meteorology advises rainfall over the past several weeks and months has caused renewed and prolonged flooding along the Murray River.

Along the Murray River, major flooding higher than the 1975 flood is occurring at Wentworth.

The Murray River at Wentworth peaked at 34.16 metres AHD around 11:15 am Sunday 18 December and is currently at 34.13 metres and falling slowly, with major flooding.

The Murray River at Wentworth may remain above the major flood level (33.88 m) until early to mid January.

NAVIGATION WARNING - Marine Notice No. S02287

The operator of a vessel must not cause wash that damages or impacts unreasonably on:
any dredge or floating plant, or

- (b) any construction or other works in progress, or
- (c) any bank, shore or waterside structure, or
- (d) any other vessel, including a vessel that is moored.

For more information call 131 236 or visit www.transport.nsw.gov.au

Vessel operators are strongly discouraged from using affected waters until conditions return to normal. However, persons legitimately requiring to use affected waters are instructed to significantly minimise vessel wash to protect saturated riverbanks and adjacent properties, many which may be relying on sandbags and levy banks for protection.

VITAL COMMUNITY INFORMATION

- Current mapping products for the Murray River from Victorian authorities are not portraying an accurate picture of Murray River flooding on the NSW side of the river.
- These maps have been designed to highlight Victorian communities only and the impact of newly created levies in Wentworth are not accurate.
- Please do not use these online products to inform you of your flood risk during this current event.
- The Bureau of Meteorology provides regular updates on predicted flooding and the NSW SES will continue to publish daily warnings about Murray River flooding and the consequences downstream of Mildura.
- Please visit www.ses.nsw.gov.au to view these warnings each day.

Based on predictions from the Bureau of Meteorology, the following areas may be impacted by dangerous floodwaters:

- Log Bridge Road
- Low lying areas in Junction Park
- Low lying areas of Willow Bend Caravan Park
- Ski Reserve boat ramp
- Ski Reserve Road near the Broken Hill / Wentworth Pumping Station
- Low lying areas along the Darling and Murray Rivers may be inundated
- Local access roads may be closed due to floodwater
- Low lying sporting fields, parklands and public recreation areas are impacted by floodwater
- Properties along Lagoon Road and West Street in the Theoga Lagoon area may become isolated. Residents should prepare now for possible isolation for an extended period or relocate.
- Make sure you have adequate essential supplies including food, drinking water, medications, pet food, and animal feed to last for at least ten days.

What you need to do:

- If you have a Home and/or Business Emergency Plan, review it now. Otherwise, have a conversation and plan for what you will do and take with you if you need to evacuate.
- Consider the consequences of road and bridge closures and water over roads and make alternate arrangements for work, children, and travel.
- Plan your route carefully to avoid flooded roads and allow extra travel time.
- Obey all signs about road closures and instructions from emergency services.
- Avoid storm drains and pipes, ditches, ravines and rivers.
- Never drive, walk, ride through, play or swim in floodwater - it is dangerous, toxic, and may void your car insurance. If it's flooded, forget it. Fines apply.
- Share this information with family, friends, and neighbours and help others prepare where possible.
- Farmers should consider moving pumps and farm equipment to higher ground.
- If you are isolated and require resupply, contact NSW SES on 132 500.
- If you are likely to be isolated due to flooding, stock up on essential items now.
- Visit Wentworth Shire Council website for information on local road closures <https://www.wentworth.nsw.gov.au/infrastructure/engineering-services/roads-and-traffic/road-condition-report/>
- For livestock assistance, please call the Agriculture and Animal Service Hotline on 1800 814 647

For more information:

- Listen to your local ABC radio station which can be found at reception.abc.net.au.
