

Over Wintering Fruit Fly Management webinar

Join us for a free webinar designed for growers, landholders, and industry professionals to get the latest updates and follow up on Queensland Fruit Fly (QFF) management.

Presenter

Andrew Jessup (Fruit Fly entomologist).

Topics

The workshop will cover several important topics, including:

- understanding QFF overwintering behaviour
- effective management strategies during cooler months
- best practices for reducing QFF populations before the next season.

Event details

Date: Tuesday 27 May 2025.

Time: 3 pm – 4.30 pm.

Venue: Webinar.
