How to Subscribe to Blue-Green Algae Red Alerts in WaterInsights

A short video guide: WaterInsights - How to set river gauge alerts

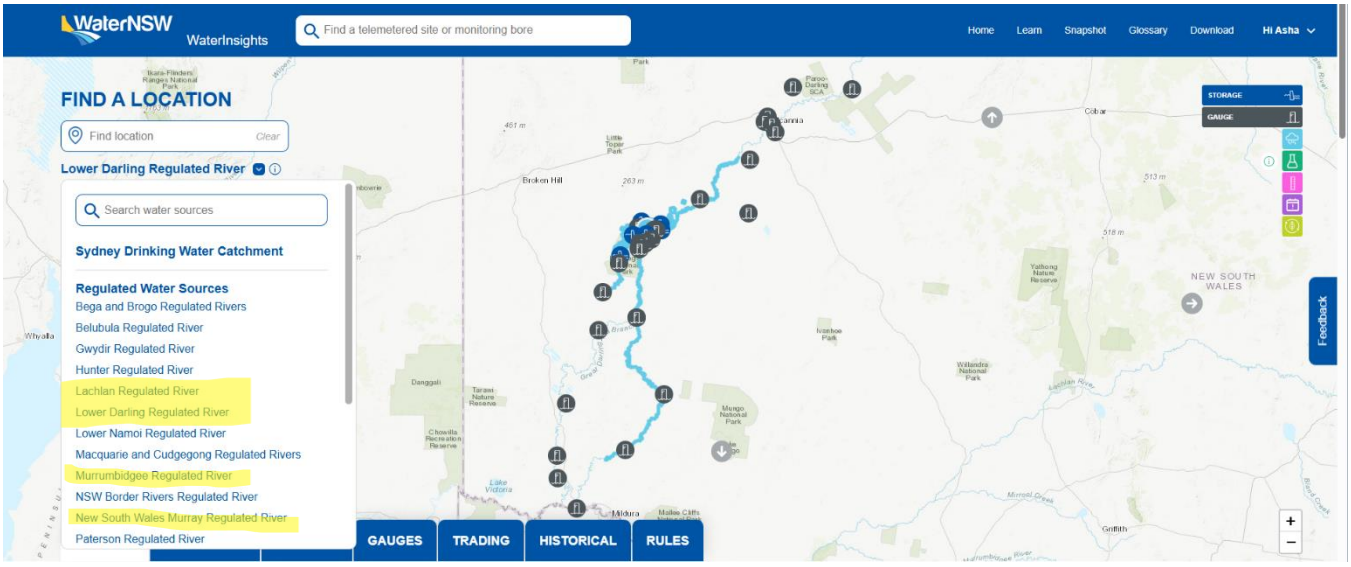
Sign in to WaterInsights

1. Go to the WaterInsights website and click the "Sign in or register" button at the top right corner of the page (*If you don't already have an account, follow the instructions to create one.*)
2. Once logged in, your first name will appear in the top right corner of the page

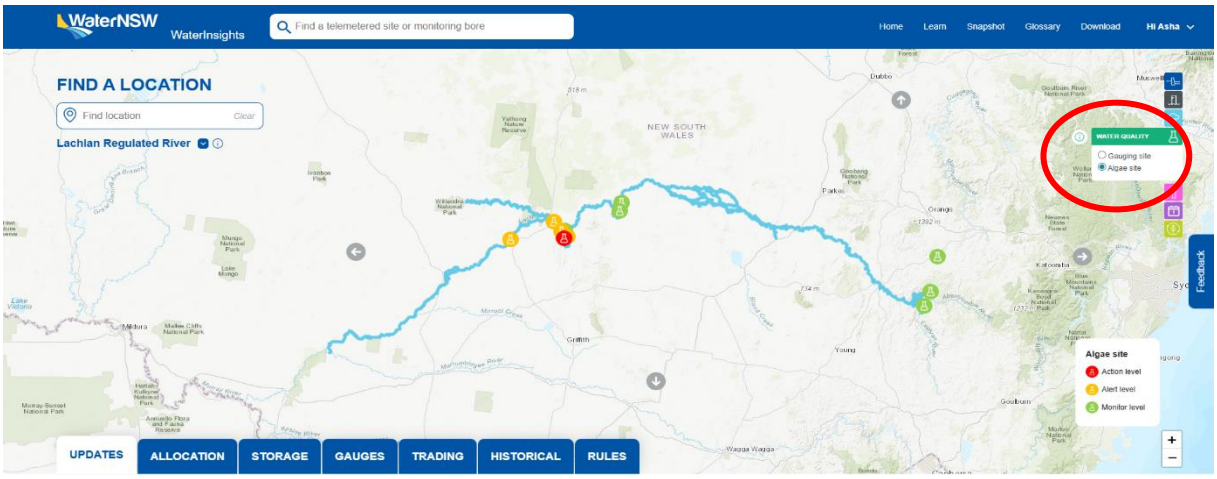
Navigate to the Water Source

1. Locate information for a specific water source by clicking the blue arrow icon found under the 'Find a location' box to show a drop-down list of water sources.

RACC Region	Regulated Water Sources
Lachlan RACC region sites	Lachlan Regulated River
Murrumbidgee RACC region sites	Murrumbidgee Regulated River
Murray & Sunraysia RACC region sites	New South Wales Murray Regulated River & Lower Darling Regulated River

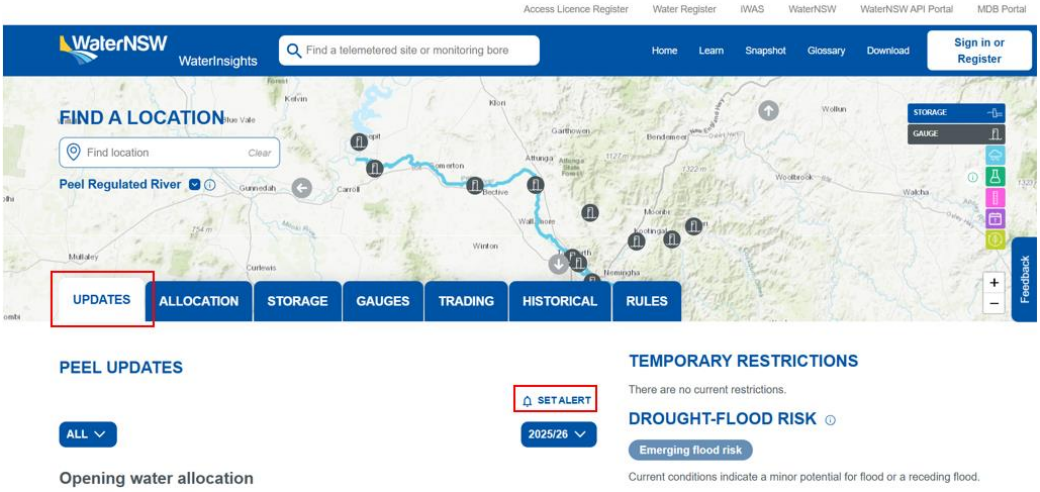


2. Click on the Regulated Water Source to go to the storage page for that water source.
3. To view current algal alerts, navigate to the green conical flask symbol on the right side of the screen, and select 'Algae Site'.

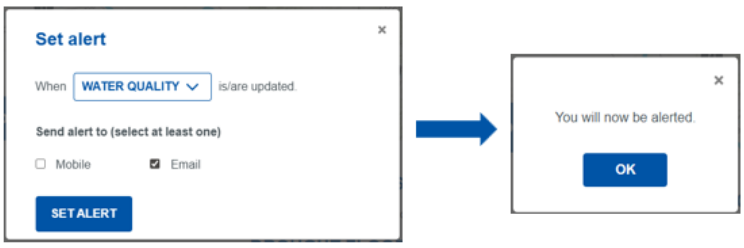


Subscribe to Algae Alerts

1. Click the "Updates" tab, then click the "Set Alert" button.



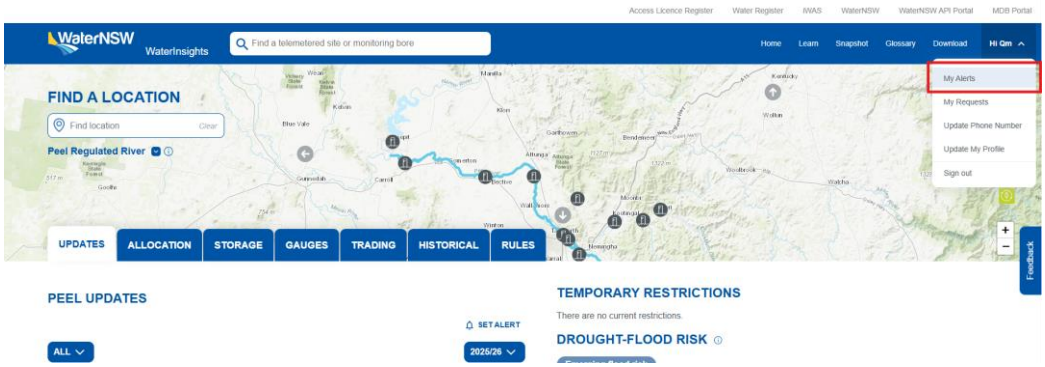
2. In the popup:
    - Select **"Water Quality"** from the dropdown menu.
    - Choose your **preferred alerting method** (e.g., email or SMS).
3. Click the "Set Alert" button to confirm your subscription.

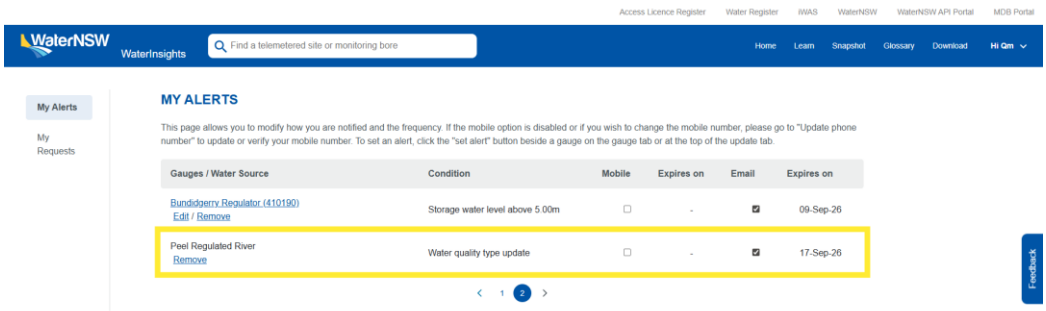


4. Repeat if needed for other water sources.
5. **The subscription is for ONE year only**. **After this date, you will need to subscribe again.** See 'How to Manage Alerts' for further information.

How to Manage Alerts

1. Go to manage alerts page or click user name menu on the top right corner and select “My Alerts” from the menu





2. The page shows all the alerts you’re subscribed to and allows you to modify how you’re notified and the frequency.
